

Vision Statement

“MWCS vision is that cats are regarded as a welcome and valuable part of Australian society and cared for by their community”.

Mission Statement

“Our mission is to rescue and re-home, lost, abandoned and mistreated cats in the region, to ensure the humane treatment and wellbeing of cats and to promote community education and responsible cat management.”

Values Statement

Cats are part of a group of animals known in Australia as Companion Animals and play an important role in Australian society.

There are known and documented health benefits to individuals and the community, from owning a companion animal.

Cats have the right to be treated humanely, and have their health and welfare needs met by their ‘owners’.

Lost and abandoned cats deserve to be cared for by the community at large and re-homed to a caring and responsible guardian.

Controlled cat populations in public places or ‘community cats,’ have a role to play in the management of pests such as mice and rats, therefore reducing the threat to public health.

Sterilisation is essential for all adult cats, for the welfare of the cat itself, disease control and control of cat populations.

Homelessness is not a good enough reason to be put to death.
